Nowadays companies don't compete rather supply chain competes. Bangladesh has become one of the most important global suppliers of the world. In the ready-made garment (RMG) sector, Bangladesh is the second largest exporter in the world after China. Bangladesh earned \$55.55 billion in export earnings in fiscal year 2022-23, seeing a narrow growth of 6.67% year-on-year growth on the backs of the apparel sector, according to recent data by the Export Promotion Bureau (EPB). The country's export earnings crossed the milestone of \$50 billion for the second consecutive fiscal year. It previously earned \$52.08 billion from export earnings in FY22.

However, to sustain such a growth rate in the future, Bangladesh needs to compete with other emerging countries like Vietnam, Myanmar, and the Philippines etc. Knowledge-based manpower can be a good resource to sustain those achievements. Considering this requirement of manpower developing short courses are organized by the Directorate of Continuing Education (DCE), BUET is designed to provide the participants with comprehensive knowledge on supply chain management in the context of Bangladesh.
